

Introducing Our New Refrigerant Cylinder Exchange Program.

**Bring in your
recovery cylinder**

**and exchange it
for a clean one.**

Simple as that.

Never buy another refrigerant tank again with US Air's Refrigerant Cylinder Exchange Program. Get started by bringing in your old cylinders, with or without refrigerant, in- or out-of-date, to be serviced by US Air, free of charge. Then receive our clean, up-to-date, tested and certified cylinder(s) back with your deposit. Simply exchange at participating US Air locations as needed. It's convenient, affordable and immediate for US Air customers only. To learn more, contact your Territory Manager or call 626/854-6846.

ADVANTAGES OF US AIR'S REFRIGERANT CYLINDER EXCHANGE PROGRAM

- Exchange used cylinders with clean, tested and certified ones – never purchase another cylinder again
- Extremely convenient, affordable and hassle-free
- Reduce cost – one flat fee covers handling, oil disposal, cleaning, painting, repair and testing – No minimum fill requirement
- All 30#, 50#, 125# & 1000# cylinders are compatible for R22 or R410A refrigerants
- Eliminates the risk of using obsolete cylinders
- US Air maintains compliance – no certification worries
- DOT-approved containers suitable for storage and transport
- Ozone EPA Compliant
- Available at US Air locations in Southern Californian and Arizona
