

Both do the same thing.

But the one on the left takes less space and is easier and less expensive to install.

5 Ton 13 SEER Condensing Unit Comparison

York® Microchannel Model #TCGD60S21S1 weighs only 200 lbs and requires a 30" x 30" condenser pad which costs a light \$24.

30" x 30"
PAD

36" x 36"
PAD

Competitor's model weighs 239 lbs. (20% heavier) and requires a 36" x 36" condenser pad which costs a hefty \$33.

Get the US Air Advantage With New Microchannel Units

- 20% less weight makes it easier to install, saving time and expense
- Does not require TXV coil to get 13 SEER (a \$25 to \$40 savings!)
- Save up to \$33 per unit by using an existing condenser pad
- Diamond guard coil protection virtually eliminates unsightly coil damage
- Microchannel corrosion-resistant coil, perfect for coastal applications
- Fits through gates and in side yards
- More attractive, compact features
- Same or better sound levels than competitors
